

Hardener HSC 9214

(Reactive polyaminoamide)

Product Description HSC 9214 is reactive polyaminoamide curing agent, it is used in combination with HSC 7110 modified liquid epoxy resins, offers a short pot life. HSC 7110/HSC 9214 is multipurpose RT curing high strength system.

Features No VOC are liberated during the course of reaction, superior mechanical, thermal and electrical strength.

Applications

- Multipurpose system
- High temperature stable system.

Product Specifications

Properties	Units	Reference Standard	Value
Appearance	Visual	HTP-1	Yellow Clear liquid
Color	Gardener	ASTM D 1544	<4
Viscosity at 25°C	mPas	ASTM D 2196	3500-5500
HTP : HSCL Testing Procedure			

Processing and Storage

Packaging HSC 9214 available in available in 1 kg and 30 kg packing.

Safety & Handling Following instructions needs to be followed strictly. Keep working conditions clean. Allow fresh air in, if possible, provide ventilator. Avoid contact with human body directly, wear gloves and other personal protective equipment especially dust masks or respirators. Wash hands carefully with soap. If possible, wash with acetone and alcohol first, then soap and water. In case of eye contact, wash with running water for 15 minutes and then seek medical treatment.
Refer MSDS for better instruction on Safety & Handling

Storage Conditions HSC 9214 should be stored at room temperature free of moisture, in the original containers kept tightly closed at temperatures between 5-35°C. Container once opened should be tightly closed to avoid contamination by foreign materials. The shelf life for hardener HSC 9214 is 12 months from date of manufacturing.
